

Eagle Trailer Company

Lawrence, Kansas

Eagle Flatbed Trailers

We strive to design and build trailers that are both durable and economical. Our design and technical staff have gained great experience from the thousands of repairs that we have made to our trailers as well as many other manufacture's trailers over the years. We also send our staff to advanced training to keep their expertise up to industry standards. This exposure to a wide variety of design and assemblies both successful and otherwise has created a wealth of practical knowledge that is applied to the improvement of the design and construction of Eagle trailers.

Model 7X20FTA70-14,000

As shown: Flatbed Trailer 7X20, Tire-Mount, Aluminum Wheels, Extra-D Rings

Model 8X20TTA70-14,000

As shown: 8X20 Extra wide flatbed trailer
