

NEW PRODUCT

SNOWDOGG'S ALL NEW PLOW LINES

Introducing our HDII/EXII/VXFII Plows

- Rugged and clean new design to complement your truck.
- Simplified harnesses and connectors for quicker error proof installations.
- Improved mounting system for easy on, easy off.
- Improved ground clearance with existing truck side mount hardware
- Easy to adjust municipal chain lift
- Securely covered and easily accessed lift frame hydraulics

- Higher stacking and transport heights for flexibility.
- Floating A-frame for even cutting edge wear and optimal scraping.
- Energized rod seal cylinder design with anodized aluminum gland nuts for efficiency and long life.
- One button per function ergonomic soft stop hand held controller with backlighting for smooth and efficient operation.

Available June 15, 2017!
